In June 2017, Monika Kobylecka, esteemed Acupuncturist and teaching assistant of Master Acupuncturist Kiiko Matsumoto, returns to Australia to conduct further trainings in Kiiko Matsumoto Style Acupuncture.

This seminar, Latest Developments in Kiiko Matsumoto Style Acupuncture: DLPFC Treatment for Chronic Pain & Digestive Conditions + Kiiko’s Latest Material, covers the newest concepts, theories and techniques which are the fruits of Master Acupuncturist Kiiko Matsumoto’s tireless clinical research, in an in-depth and structured learning approach, which Monika is famous for. This is a great opportunity to cover Kiiko’s latest material, to take your practice of Kiiko Matsumoto Style (KMS) Acupuncture to the next level. Those with prior studies in KMS are welcomed to attend. Those without prior studies in KMS, wishing to commence studying this style of acupuncture this year, are recommended to attend the Foundations in Kiiko Matsumoto Style Acupuncture course, being held in Brisbane on 16th-19th June, 2017.

Monika’s seminars fulfill the continuing goal of raising the level of proficiency in the practice of Kiiko Matsumoto Style Acupuncture within Australia and New Zealand.

Kiiko Matsumoto Style Acupuncture has been continuing to evolve over the years as Kiiko Matsumoto refines and develops the treatment strategies that she has integrated as a result of her study with important Japanese acupuncture Masters, including Master Nagano, Master Kawai and Dr. Manaka. Monika Kobylecka has had the unique opportunity of studying, working, and teaching with Ms. Matsumoto for more than 12 years, and has dedicated herself to the practice and teaching of this clinically effective Acupuncture style.

Monika specializes in presenting Kiiko’s most up-to-date information, in a highly structured and coherent manner, allowing attendees to maximize their understanding of Kiiko Matsumoto Style Acupuncture, enabling them to apply it fluently within their practice on their first day back in clinic, for outstanding clinical results.

“Monika is a wonderful teacher, highly skilled and has a great understanding of the Kiiko style of acupuncture. She has studied with me for years, and has spent a great deal of time gaining a thorough understanding of my own work.

I completely trust her to teach my material to students and am happy to have her on my team.”

- Master Acupuncturist Kiiko Matsumoto
Monika Kobylecka is a licensed acupuncturist practicing Kiiko Matsumoto Style (KMS) acupuncture at Children’s Hospital Los Angeles (CHLA).

Monika completed her Master of Science degree at Pacific College of Oriental Medicine where she was first introduced to Japanese acupuncture. What shaped her current practice was meeting renowned Japanese practitioner Kiiko Matsumoto in 2004 and learning this master’s unique style. It was during one of the first classes Monika attended with Ms. Matsumoto that she discovered how acupuncture can be practical, effective and interactive - something that a patient doesn't have to believe is working; they can feel it working right during the treatment.

For the last 12 years, Monika has continued to work closely with Ms. Matsumoto – observing her in her clinic in Boston, assisting her in her seminars and collaborating on Ms. Matsumoto’s latest book. Monika also teaches introductory, hands-on classes in KMS acupuncture in the United States and around the world.

Back home in Los Angeles, Monika’s private practice is based at CHLA where she holds privileges. She sees pediatric patients in an integrative setting of the Pediatric Pain Clinic; supervises students for the CHLA-YSU Pediatric Acupuncture Program; is involved in ongoing research on the effects of acupuncture; and runs the CHLA Employee Acupuncture Clinic which provides acupuncture to physicians, nurses and hospital staff.

Her passion for acupuncture, facilitated by Kiiko Matsumoto Style, translates into an ongoing effort to bridge the gap between Eastern and Western medicine in a practical and patient-focused manner.

“My initial exposure to Kiiko was incredible and overwhelming at the same time. I am so glad that I have had the opportunity to study with Monika for this reason. Monika is meticulously organized and prepared for her presentations. She has a down-to-earth, step-by-step approach that describes how to understand the theory and practice of this incredible style of acupuncture.

I can honestly say that I am able to implement what I learn with Monika on my first day back in the office and the results are immediate. The material that she presents is relevant and useful to anyone practicing acupuncture. Truly a life changing experience.”

Rob Mills, L.Ac. Bend, OR

“Monika organizes Kiiko’s material in a coherent and usable format. Monika’s classes have truly transformed my practice.”

Zach Nelms L.Ac. Oregon City, OR
Kiiko Matsumoto Style Acupuncture is characterised by:

- Diagnosis through palpation – instant feedback for patient and practitioner through touch.
- Holistic approach – addressing the entire person to get to the root of problem.
- Japanese tradition – steeped in tradition, yet innovative.
- Eclectic methods – wide variety of methods tailored to each individual.

Which practitioners/students will benefit from taking Monika’s courses?

- Practitioners wishing to build upon the knowledge and skill base taught in previous Kiiko Matsumoto Style Acupuncture Courses
- Practitioners with a strong background of practice and personal development in Kiiko Matsumoto Style Acupuncture within their own clinic based on previous studies, seminar attendance, or study and application of Kiiko Matsumoto’s Clinical Strategies books.
- Practitioners wishing to increase their effective clinical results by using methods that are easy to learn and apply instantly in clinic.
- Practitioners and students wanting to develop further in the practice of Kiiko Matsumoto Style, so that they may utilize this system of treatment fluently in clinic for outstanding results.
- Practitioners and students wanting to further develop their skills in a system of acupuncture whereby they conveniently measure the clinical effectiveness of their treatments during the treatment.
Material Covered in this Seminar:

Monika has been given full permission to teach Master Acupuncturist Kiiko Matsumoto’s latest material which has not yet been taught in Australia.

In this Seminar, Monika will be comprehensively covering Kiiko’s DLPFC (Dorsolateral Prefrontal Cortex) Treatments. According to modern fMRI brain research, the DLPFC region of the brain begins to alter/weaken as a condition becomes chronic, or if the condition’s aetiology is rooted in shock/trauma. This has important implications for a variety of stubborn, chronic conditions commonly seen in the clinic, including chronic pain, anxiety, PTSD, substance abuse, RSD/CRPS, sympathetic dominance, and chronic digestive issues (due to the Brain-Gut connection). Treatment of the Han Dynasty & Post-Ming Dynasty Locations of the ShaoYang Scalp Points, an idea which was born out of Kiiko Matsumoto’s insights and clinical research into connections of this zone to the DLPFC, allows us to directly impact this area to create a powerful healing effect in the brain and body. Point locations, diagnostics, reflex zones and needling techniques will be covered extensively during this seminar, so that you will be able to utilise these treatments the next day in clinic for outstanding results.

Monika will also be covering a number of Kiiko Matsumoto’s other latest clinical insights.

Seminar Details

This two-day seminar is designed to build further upon practitioners’/students’ skills in Kiiko Matsumoto Style Acupuncture, through detailed lectures, and demonstrations. As attendees will have considerable experience in Kiiko Matsumoto Style Acupuncture already, less time will be spent on the hands-on component, and more time will be spent on lectures and direct observation of Monika treating attendees, and explaining the processes and concepts. However, the course will be 20% hands-on to cover the necessary component of Monika critiquing the hands-on skills and development of attendees and their progression in KMS. A Q+A segment will also feature.

This Seminar has a maximum of 40 attendees permitted. Please book early to avoid disappointment.
